## WELCOME !

### Welcome to the new version of our website!

Only 4 months after the summer **SV** edition, it's time for the cooler atari atmosphere, which we all got used to over the last two decades :) The place of the event is changing, we return to the heart of the city of Gdańsk, with all the charms of the Christmas period :) Those who have already had the opportunity to participate in the winter edition of **SV** know how beautiful this city is in the evenings, with a giant Christmas tree, bazaars, mulled wine with cloves and orange etc

The winter edition of **SV** begins on the afternoon of

**Thursday, December 9,** and ends on **Sunday, December 12!**

Take part in the winter edition of Silly Venture 2021 and feel this unique atmosphere of the coming Christmas, with a whole sack of gifts in the form of submitted competition entries for all ATARI platforms!

We invite you to the world's biggest wonderland under the Fuji mountain! I sincerely believe that with your help, this winter edition of **SV** will also go down in the history of our demoscene.

Thank you for your patience and your sympathy for Silly Venture.

For now, keep warm and see you in Gdańsk!

**Grey / Mystic Bytes**
