

## SUPPORT AND MEDIA PATRONS

Here I would like to thank all **sponsors, media patrons** and **individuals** for all their efforts with all of the Silly Venture Parties. It's thanks to you there's another edition of this biggest (not only in Europe but Worldwide) event dedicated to all fans of Atari consoles and computers.

I would like to thank also **ALL participants of SV** - independently if they are members of the demoscene or just users. Everyone of you added one brick to the success of this event. I am so happy, that we can common care for our memories from great days of Atari - that it isn't closed book, and it has new chapters that are still to be written to it.

Besides the so called "entertainment part" of SV, it's also the place where the biggest amount of compo entries is given from Atari 2600, through XL/XE, ST/STe, Falcon and Jaguar. Thank You for every single entry given to any of the competition. Just like in the past few years, I will do my best to prize every entry, no matter what place it will reach - including those sent via e-mail (but sending of those can be delayed, sorry in advance for this!) Finally, I have an occasion to thank ALL OF YOU - people, who supported previous editions, as well as people who keep support the current one.

## INDIVIDUALS

In 2018, we have asked you to support the "shipping campaign". Its purpose was to cover the costs associated with shipping gadgets to people taking part in competitions on SV2k17, and which could not attend the event personally. Thanks to your help many gadgets related to SV have been sent "in the world" in 2018, as a gratitude for their work. This year you have also decided to help us, thanks to which statuettes, t-shirts, calendars, silly energizers, or things closely related to Atari equipment also went to other continents. You are **GREAT!**

The shipping campaign related to the 2019 gadgets has not yet been completed (we still have some cool things to send). If you want to help us - there are two options! Any payment to **PayPal** or transfer to **a bank account** (in this case, preferred payments only from Poland, due to the high fees charged for foreign transfers). The list of people supporting our campaign will be updated on a regular basis.
